Subject: Microsoft Settlement

To Whom It May Concern:

I strongly oppose the settlement proposed in the antitrust case against Microsoft. I believe that their predatory business practices have caused a great deal of harm to the computer industry and American business as a whole, and that the proposed settlement does little or nothing to remedy this abuse of power, nor insure that it will not continue. Indeed, Microsoft has continued conducting "business as usual" even in the face of the charges against them, which I believe shows flagrant disregard and contempt for the protections put in place in our legal system.

I urge you to reject this settlement, so that the courts may decide how to best remedy the situation.

With Thanks,
Christopher Kemp
